Hi David and Chris,

Please see Jo Marie's message below. Thoughts?

Thank you and best regards,
Diana

Subject: Endosulfan in PDP cucumbers

FYI. Attached are the PDP cucumbers. They are consistent with what we are finding in our state samples.

Also Cathy called and the farm is voluntarily destroying the field today. They were done with it anyway and were not planning on harvesting any more squash from it. They were only holding on to it to get the additional lab results. So at least it was not at the beginning of their season, it was at the end.
